Oggi il nome di Gessi è sinonimo di oggetti di arredo in cui design e funzionalità coesistono in perfetta armonia; oggetti creati per un pubblico esigente, attento allo stile, alla qualità, ai dettagli e amante delle innovazioni.

Architetti, interior designer o semplici appassionati del bello e del gusto di vivere la casa, coloro che si lasciano conquistare dal mondo Gessi costituiscono un pubblico straordinario, fatto di persone estroverse, creative, dinamiche, innovative e a volte un po' fuori dagli schemi, persone capaci di modificare il presente e di inventare il futuro.

Pensando a queste persone abbiamo creato nuovi concetti abitativi attraverso la più vasta gamma immaginabile, in stili, modelli e soluzioni di installazione che consentono una illimitata libertà di progettazione legata all'acqua, con soluzioni inedite e imprevedibili - da pavimento, da muro, da soffitto - dotate di quelle caratteristiche speciali, estetiche e tecnologiche, che rendono il prodotto e l'ambiente a sua volta speciale: un luogo da vivere e mostrare, in cui i gesti quotidiani acquistano un valore nuovo e straordinario.

Attraverso i nostri prodotti proponiamo una nuova prospettiva sulla vita, centrata sulla qualità del proprio tempo nei propri spazi, una prospettiva che muove da oggetti non solo eleganti ma anche funzionali grazie a una tecnologia discreta ed amica della natura. I nostri prodotti sono pensati avendo in mente le persone che li useranno, e con l'aspirazione che l'arte e il design arricchiscano gli spazi dell'abitare.

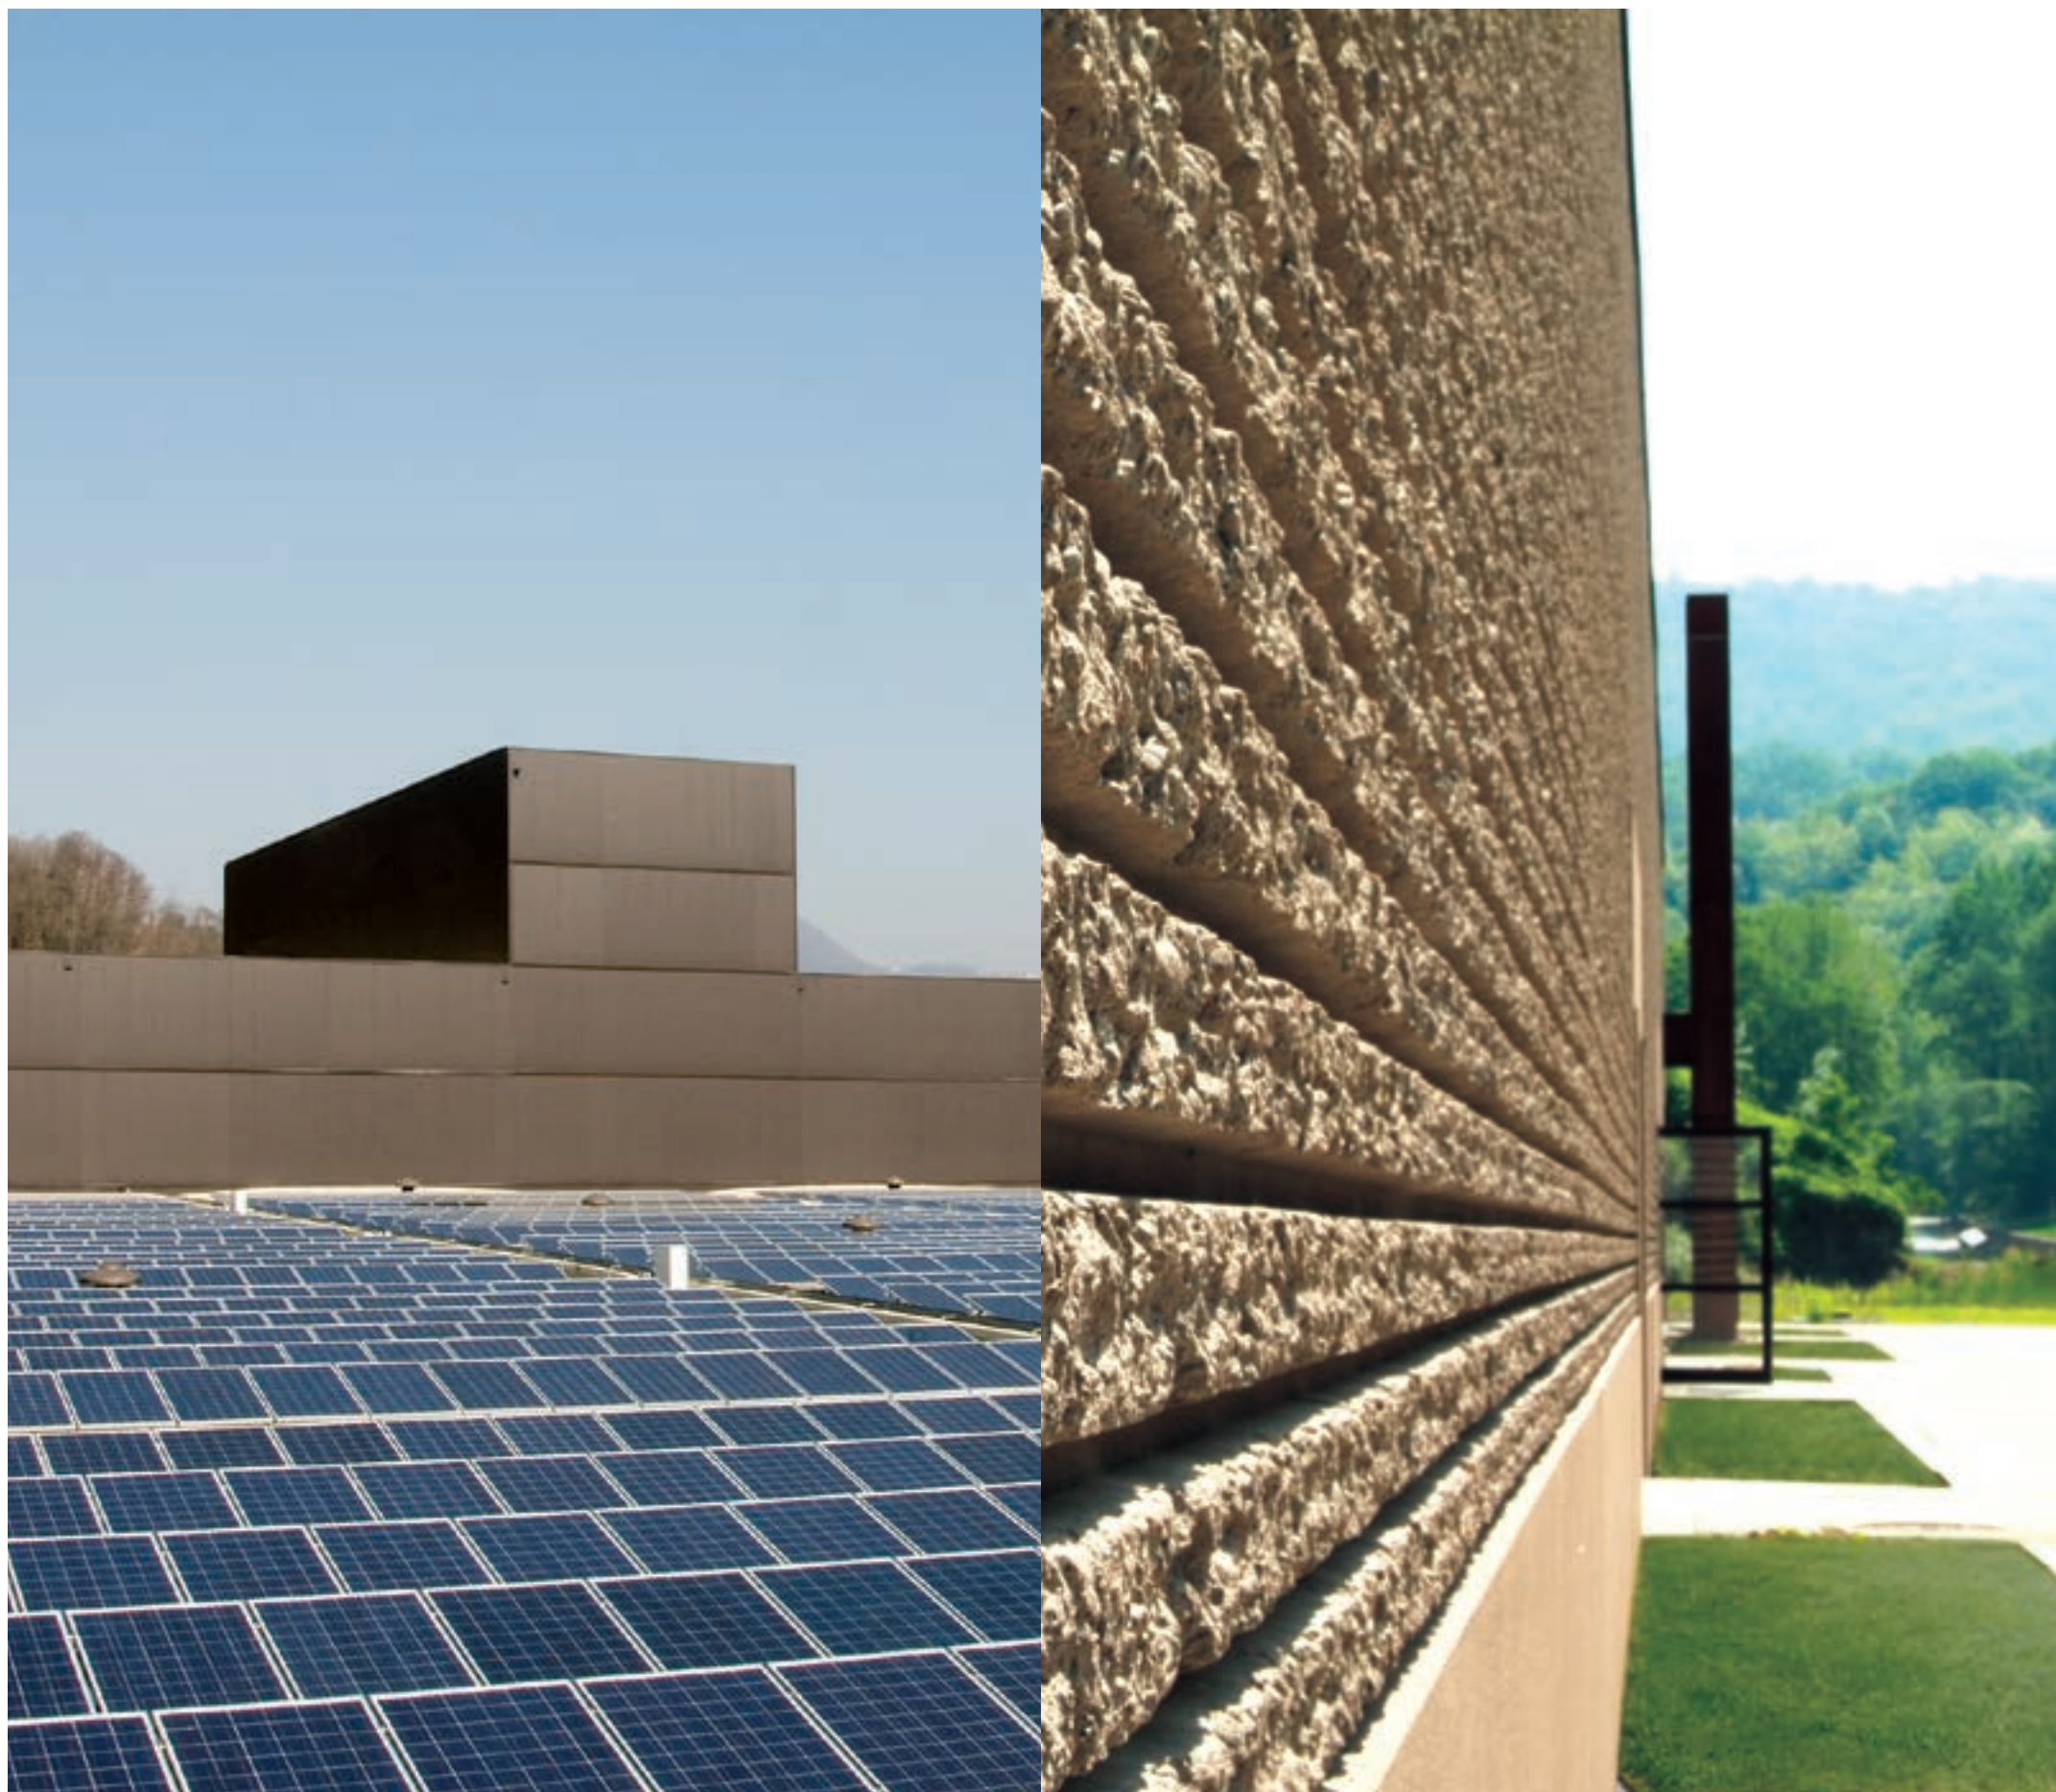

Crediamo che il buon design debba avere un contenuto di poesia, verità e bellezza; i nostri progetti nascono dalla libertà del design e da un tratto sempre originale. Amiamo gli oggetti che si liberano dalla funzione codificata e prescritta per reinventarsi a nuovi usi: oggetti empatici, amichevoli, godibili. Oggetti che migliorano la vita delle persone.

Materia, forma e funzione si incontrano sublimandosi reciprocamente nei nostri design, in cui la semplice ed eterna bellezza dell'acqua si racconta attraverso segni archetipici elementari, incastonati come gioielli dall'uso funzionale, negli ambienti dedicati alla cura di sé.

Forme minimali danno vita ad oggetti emozionanti che ridefiniscono il rapporto tra l'acqua, lo spazio e la persona; che reinventano continuamente la forma dell'acqua. Tra contemporaneità e futuro.

EDITORIALE

GISSI®

Today, the name Gessi is synonymous with fine pieces of furniture whose design and functionality coexist in perfect harmony. These objects of art are meant for demanding consumers with a penchant on style, quality, details and innovation.

Architects, interior designers or simple lovers of beauty and the pleasure of being at home are unfailingly charmed by Gessi's world. A world that suits extraordinary, extrovert, creative, dynamic and innovative people who are able to change the present and invent the future with sometimes off-the-wall fantasies.

With these people in mind, we have created new residential concepts in the widest range possible of products, styles, models and installation options lending themselves to an unlimited freedom of design choices associated with water. The result is unusual and unpredictable solutions – whether floor-, wall- or ceiling-mounted – with special aesthetic and technological characteristics making the product and, hence, the surrounding environment special: a place to be experienced and shown off, in which daily gestures acquire a new, extraordinary value.

In our products we propose a new perspective in life centred on the quality of the time dedicated to oneself without overlooking the characteristics of existing spaces, a perspective that relies on elegant yet functional objects – functional because they are based on discreet, nature-friendly technology. Our products are therefore thought of with perspective users in mind and the ambition of enriching habitable spaces through art and design.

In our view, good design needs to be imbued in poetry, truth and beauty. Our projects originate from the freedom of our ideas with invariably original and distinctive traits. We love objects that set free from their usual, codified function and convert to new uses. No question about it! Products need to be empathic, friendly and affable to improve people's lives.

Matter, form and function combine and reciprocally sublimate in our designs, in which the simple and timeless beauty of water stands out through archetypal elementary signs, all perfectly set like jewels with functional use in environments dedicated to self-care.

Minimal forms breathe life into soul-stirring objects redefining the immemorial relationship between water, space and humans and continuously reinventing the forms of water. A journey where present and future meet.
